

## Call for Speakers/Panels/Papers

### PFM in a Changing World

ICGFM 33<sup>rd</sup> Annual International Training Conference, May 12-17, 2019  
Miami, FL USA

Every country has embraced public financial reforms over the last decades. While many countries have succeeded, others have not met expectations. Yet, the demand for reform continues. This conference will focus on the political and organizational changes necessary for effective change with an emphasis on building required capacity.

ICGFM desires to take an evidence-based approach to examining “Public Financial Management in a Changing World” with the participation of country reform leaders, bi-lateral and multilateral organizations, leading consultancies and other experts. Conference speakers will present case studies of effective public financial management (PFM) reforms focused on political, organizational, procedural and technological changes that were required for success.

Governments and participating attendees will leave the conference with:

- An understanding of what makes reform agendas successful and a framework for how to implement successful reform in their countries;
- Approaches for strategic engagement with stakeholders and effective change management techniques;
- Evidence-based insights between the quality of the inputs and the desired outcomes, with a deep appreciation of the necessary effort countries undertake to build PFM capacity to serve its citizens, and;
- Application of technology to reinforce reform efforts and support evidence-based programming, good governance and required transparency.

ICGFM solicits proposals for speakers/panels/papers/case studies that demonstrate efforts toward using PFM initiatives to improve the business environment and enhance citizen engagement for its upcoming 33<sup>rd</sup> Annual International Training Conference to be held at the Miami Marriott Biscayne Bay, Miami, FL, USA.

**DEADLINE FOR SUBMITTING PROPOSALS: February 24, 2019.**

Selected presenters from the public and non-profit sector may be awarded a stipend and given an opportunity to publish their case studies in the ICGFM Journal.
