

*Raising Integrity
& Building Public Trust*

Audience Question:
What percentage of countries have an anti-
corruption program?

Overview: The impact of corruption

Corruption hinders economic growth...

Large private sector companies are aggressively investing in new markets/territories for growth

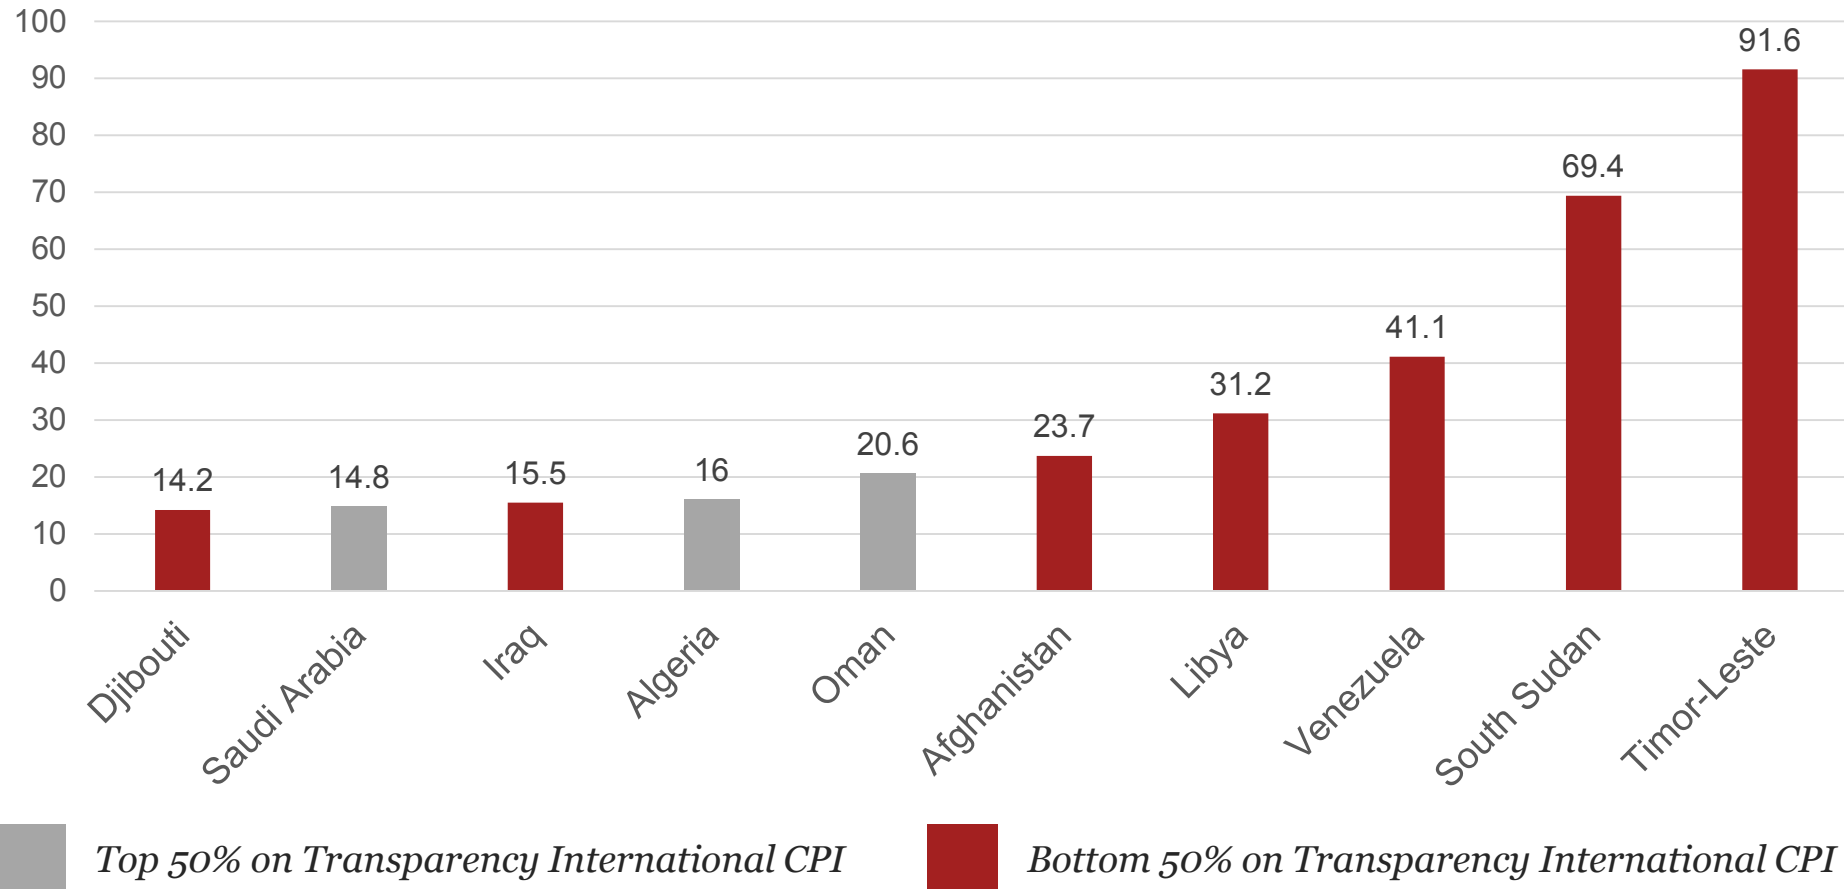

More countries have recognized the need for private sector growth through multinational companies

With supply side interest up and data visibility at an all-time high, companies generally opt to invest in markets who are making strides to limit corruption

Trends in Foreign Direct Investment (FDI)

...And reduces governments' ability to meet the needs of their citizens

World's Largest Budget Deficits

Audience Question:
Who is the most impacted by corruption?

Governments today have an opportunity to address some of the most complex challenges

IFMIS Systems

Blockchain

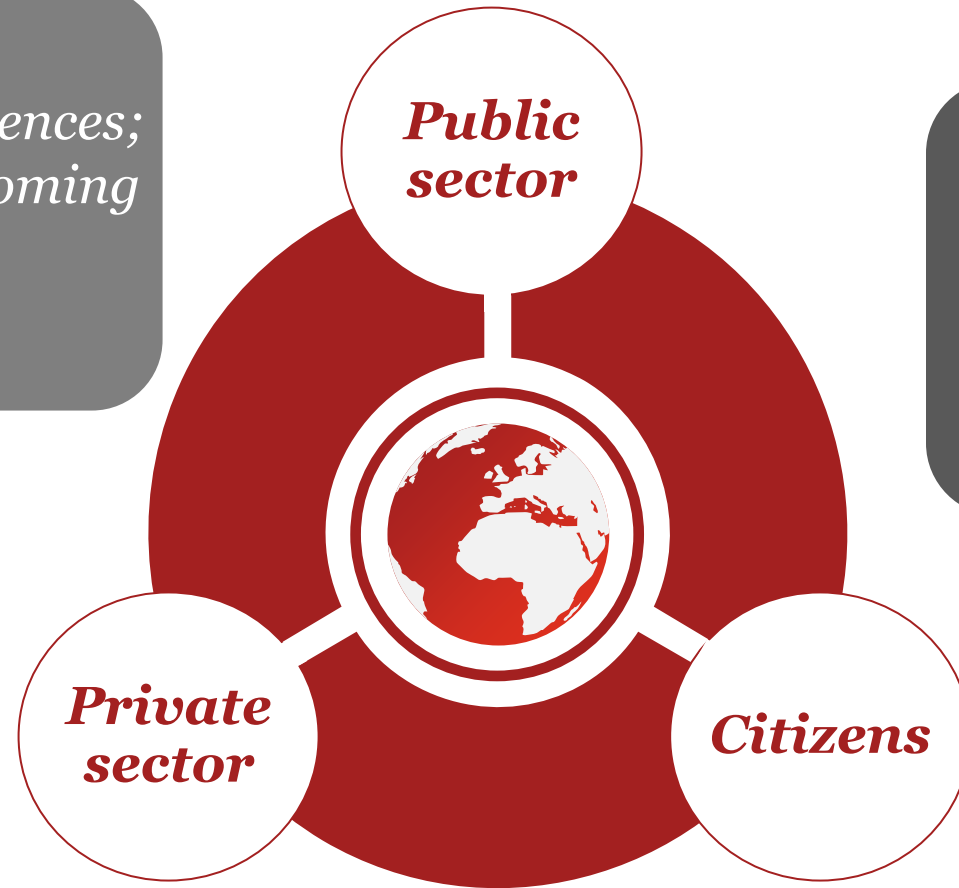

e-Procurement
and e-Payment Tools

Geospatial
Technology

Social Media

But who must be involved in the solution?

Companies are facing unprecedented consequences; as a result they are becoming more proactive in combatting corruption

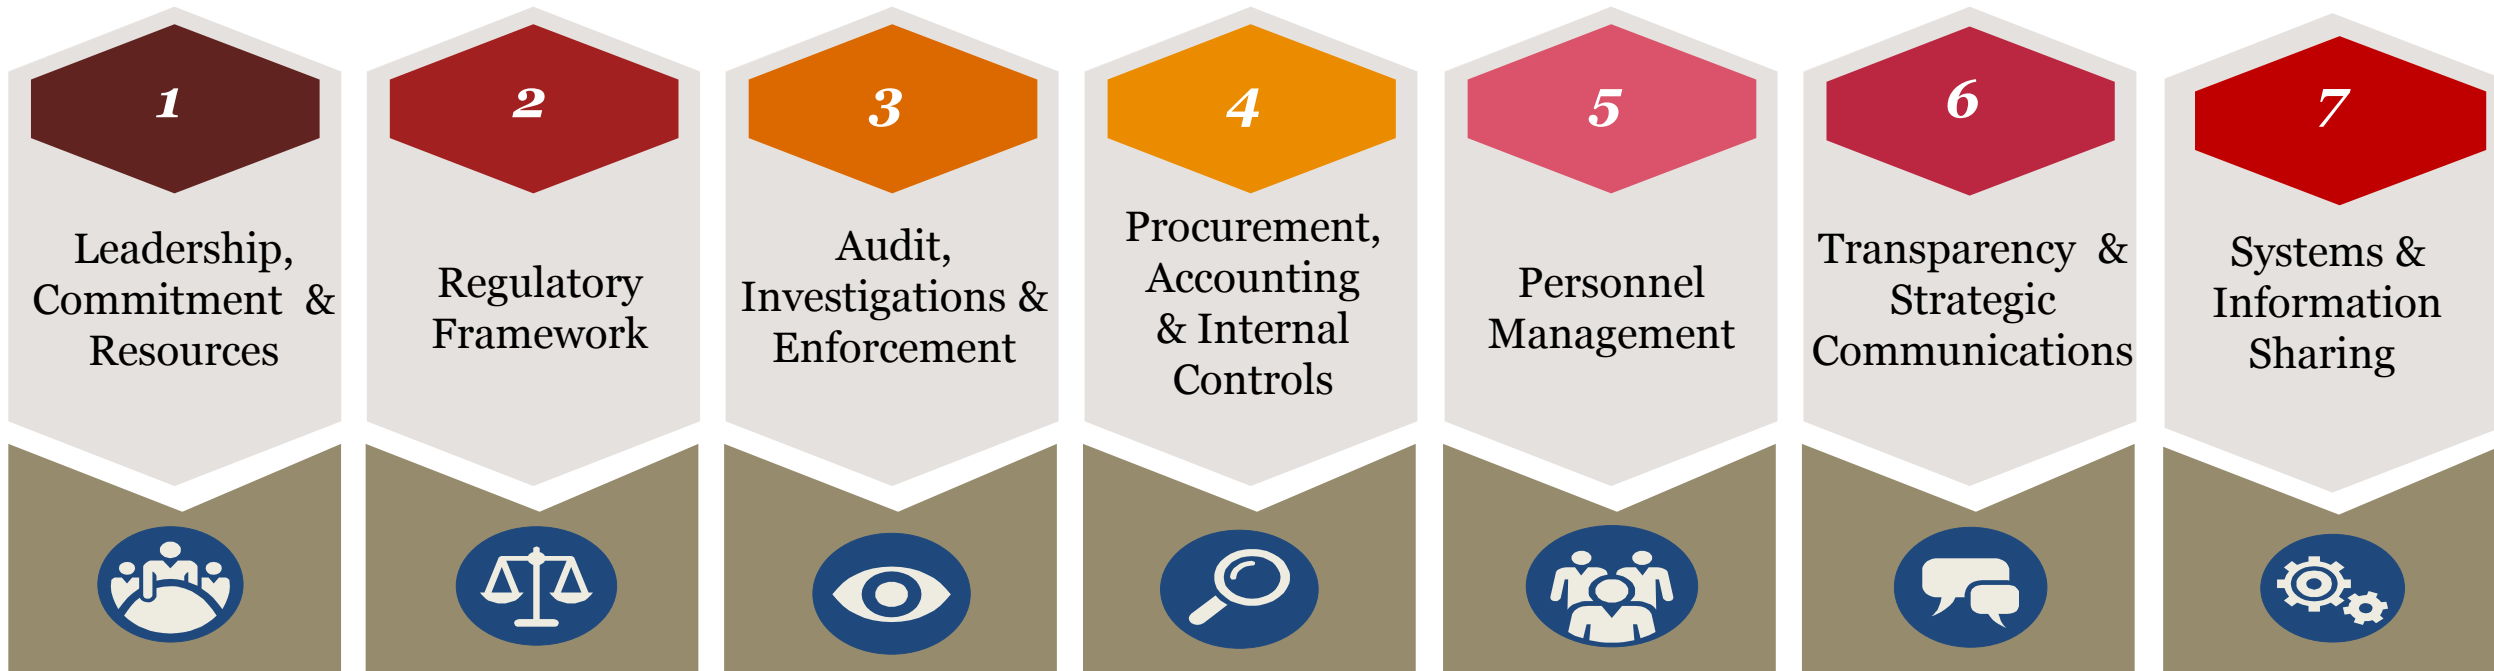

The anti-corruption movement has come a long way in 20 years...but still has a long way to go...governments must take ownership

And what are the building blocks of a robust integrity architecture?

Effective integrity programs must combat corruption across many dimensions

Audience Question:
Which technique has proven most successful?
Which is most commonly employed?

Thank you!
